Professional Experience

YELLOWBIRD HOLDINGS

Phoenix, AZ

Software Engineer I

May 2023 – June 2024

- Successfully integrated Canopy Connect API, expanding the platform's capabilities and enabling seamless interaction with third-party Auto Insurance Verification services.
- Streamlined the import and verification process of auto insurance for PROS, significantly improving workflow efficiency and reducing operational overhead on job matching.
- Led the development of innovative features and the integration of third-party APIs, for the Yellowbird online platform, resulting in enhanced user engagement and satisfaction, expanding the application's functionality, and improving overall performance.
- Leveraged ReactJS, TypeScript, NodeJS, and Figma to drive the development and design of new features, delivering a modern and robust user experience.
- Fostered effective communication within the team by actively participating in weekly Ops/Dev, L10 meetings, and Sprint Demos, ensuring alignment and progress towards project goals.
- Upheld high-quality standards through thorough code reviews, resulting in a maintainable codebase and swift resolution of identified bugs.
- Demonstrated agility in resolving high-priority bugs reported by the operations team, enhancing platform reliability and user satisfaction.

YELLOWBIRD HOLDINGS

Phoenix, AZ

Junior Frontend Developer

August 2022 – May 2023

- Successfully led the migration of the previous website from Squarespace to a new platform, ensuring a seamless transition and improved performance.
- Leveraged JavaScript, ReactJS, Figma, HTML, and CSS to design, develop, and enhance website and app features, delivering a seamless and visually appealing user experience.
- Actively participated in Daily Standups, Sprint Demos, and Sprint planning, fostering effective teamwork, and ensuring alignment with project objectives.
- Ensured consistent project progress by monitoring team velocity through regular performance reviews and utilizing Sprint Burn Down in Jira, facilitating timely delivery of milestones and features.
- Collaborated professionally in a 6-person team, specializing in front-end development projects, contributing to the team's success, and delivering high-quality solutions to meet client needs.

YELLOWBIRD HOLDINGS

Phoenix, AZ

Web Development Intern

May 2022 – August 2022

- Led the design and implementation of user-friendly interfaces for optimal experiences on goyellowbird.com and the goyellowbird app, resulting in increased user engagement and satisfaction.
- Utilized JavaScript, React, HTML, and CSS to develop and enhance various website and app features, enhancing functionality and usability.
- Played a pivotal role in Daily Standups, Sprint Demos, and Sprint planning, fostering collaboration and ensuring alignment with project objectives.
