Professional Experience

YELLOWBIRD HOLDINGS   Tempe, AZ
Software Engineer I   May 2023 – January 2024
- Collaborated with a dynamic 8-person software engineering team to spearhead the development of innovative features for the Yellowbird online platform.
- Successfully integrated the Canopy Connect API from a third-party source, enhancing the platform's capabilities.
- Facilitated seamless import and verification of auto insurance for current PROS on the platform, contributing to a more efficient workflow.
- Utilized ReactJS, TypeScript, NodeJS, and Figma to drive the development and design of new features on our admin platform, ensuring a modern and robust user experience.
- Played a key role in the preparation and active participation in weekly Ops/Dev, L10 meetings, and Sprint Demos, fostering effective communication within the team.
- Conducted thorough code reviews to uphold high-quality standards, emphasizing code maintainability and addressing any identified bugs promptly.
- Led the integration of third-party APIs, broadening the application's functionality and enhancing its overall performance.
- Demonstrated agility in resolving high-priority bugs identified and reported by the operations team, contributing to the platform's reliability and user satisfaction.

YELLOWBIRD HOLDINGS   Tempe, AZ
Junior Frontend Developer   August 2022 – May 2023
- Led the design and implementation of user-friendly interfaces for optimal experiences on goyellowbird.com and the goyellowbird app.
- Utilized JavaScript, React, Figma, HTML, CSS to design, develop, and enhance website and app features.
- Actively participated in Daily Standups, Sprint Demos, and Sprint Plannings to foster effective teamwork.
- Ensured consistent project progress by monitoring team velocity through regular performance reviews and using Sprint Burn Down in Jira.
- Worked professionally in a 6-person team, specializing in front-end development projects.

YELLOWBIRD HOLDINGS   Tempe, AZ
Web Development Intern   May 2022 – August 2022
- Guided the creation of user-friendly interfaces to ensure a positive user-experience on goyellowbird.com and the goyellowbird app.
- Led the successful migration of the previous website from Squarespace, overseeing the transition to the new platform.
- Applied JavaScript, React, HTML, CSS to develop and improve diverse website and app features.
- Contributed to Daily Standups, Sprint Demos, and Sprint Plannings for effective teamwork.
- Worked professionally in a 6-person team, focusing on front-end development projects.
