Professional Experience

Sciata   Scottsdale, AZ
UI/UX Designer   August 2024 – September 2024
- Conducted user research and gathered user feedback to inform design decisions, improving usability and ensuring a user-centered approach to platform enhancements.
- Designed and prototyped desktop and mobile views using Figma, emphasizing clean, modern designs that improved the platform's visual appeal and usability.
- Developed wireframes, user flows, and high-fidelity prototypes to effectively communicate design concepts and align with project goals.
- Worked closely with developers to ensure design specifications were met during implementation, providing feedback and guidance to ensure design consistency and quality.
- Conducted usability testing to identify pain points and improve the user experience, refining design elements to ensure an optimal user journey.
- Ensured responsiveness and accessibility across different devices and platforms, adhering to best practices for UI/UX design.

YELLOWBIRD HOLDINGS   Phoenix, AZ
Software Engineer I   May 2023 – June 2024
- Integrated Canopy Connect API, streamlining auto insurance verification processes, improving workflow efficiency, and reducing operational costs.
- Led development of new features and third-party API integrations, significantly improving user engagement and expanding platform capabilities.
- Utilized ReactJS, TypeScript, NodeJS, and Figma to deliver modern and user-friendly designs and features.
- Actively contributed to Ops/Dev, L10 meetings, and Sprint Demos, ensuring alignment with project goals.
- Conducted code reviews, maintaining a high-quality codebase, and quickly resolved critical bugs, enhancing platform stability and user experience

YELLOWBIRD HOLDINGS   Phoenix, AZ
Junior Frontend Developer   August 2022 – May 2023
- Led migration from Squarespace to a custom platform, improving site performance and user experience.
- Designed and developed website and app features using JavaScript, React, HTML, and CSS delivering a visually engaging and intuitive user experience.
- Collaborated in a 6-person team, driving front-end projects to success and ensuring timely delivery of project milestones.
- Monitored team progress using Jira's Sprint burndown, maintaining consistent delivery of features.

YELLOWBIRD HOLDINGS   Phoenix, AZ
Web Development Intern   May 2022 – August 2022
- Designed and implemented user-friendly interfaces for goyellowbird.com and its mobile app, increasing user engagement.
- Developed and enhanced web/app features using JavaScript, HTML, and CSS.
- Participated in Daily Standups and Sprint planning to ensure alignment with project objectives.

Education

ARIZONA STATE UNIVERSITY   Tempe, AZ
B.S. Informatics, Focus Area Digital Culture GPA 3.9   August 2020 - May 2023
Relevant Coursework: Capstone Project ASU Marketplace App
Leadership: President, Polish Student Association, Aerodynamics Team Member Sun Devil Motorsports
Honors: Outstanding Graduate Award, Summa Cum Laude, Dean's List (2020–2023)

Core Competencies

Languages & Tools: JavaScript, React, TypeScript, NodeJS, NestJS, REST APIs, JSON, AWS, HTML, CSS, Tailwind, SCSS, SQL, Git, Figma, Sketch, Axure, Adobe InDesign.
Frameworks & Libraries: React, Angular, Next.js, Express, MongoDB.
Other: Jira, Agile, Wireframing, Responsive Design, UI/UX Design, Software Development, Web Development, Cross-Functional Collaboration, User-Centered Design.
Soft Skills: Highly Coachable, Adaptable, Strong Communication Skills, Team Player, Attention to Detail, Proactive, Growth Mindset, Time Management.
Interests: Programming , Hockey, Snowboarding, Boxing

Certifications

POSTMAN
API Test Automation
Built a foundation by creating API requests using Postman, with an introduction to the world of test automation.

CITI PROGRAM
IRB – Social & Behavioral Research
Applies behavioral and social sciences to the study of people's responses to certain internal and external stimuli.
